WORK EXPERIENCE

Management of Armed Forces Clubs and Hotels

October 2023 - Present

- **Hotels Reservation Management System:**
Improved booking and room management, allowing staff to easily handle reservations and customer requests. Created detailed customer profiles for personalized service and targeted promotions. Developed a user-friendly Admin Dashboard to help manage operations effectively.
- **Digital Archiving System:**
Built an easy-to-use local storage solution that makes file management simple. Features like drag-and-drop and quick search make it user-friendly while ensuring secure and efficient document handling for the organization.
- **Inventory System:**
Designed a powerful inventory management platform for accurate tracking and organization of items. This system streamlines daily operations and includes user role management for administrators, boosting overall efficiency.
